Introduction:

When I first began doing research on the meaning of names in Genesis chapter 10, I found that most of the reference books would usually say, ‘probably of foreign origin’ without rendering a Hebrew meaning. Afterwards, I began learning Hebrew & became convinced that Hebrew was the language that Adam & Eve spoke. (The late Dr Henry Morris Sr. also was of the same notion!) Later, when I tackled this portion of scripture again, I tackled it with the assumption that all these names have some kind of meaning in Hebrew. The results were amazing! Most of the names are records of geological events. If something was going on when the child was born, the child would be named after the event. Only seven of the genealogies of Shem, Ham & Japheth’s grandchildren are listed. When the names of those cousins are placed side by side according to birth order, they tell a story about what was going on geologically at the time in the vicinity of Mount Ararat.
INDEX:

Introduction & Japheth/Yafet  pages 4-6
Comparison Lists:

THE NAMES TELL A STORY: Volcanic activity!! [updated 5/4/12]

[Please note: Hebrew transliterations are Sephardic pronunciation.]

The names that Shem, Cham & Yafet gave to their descendants is also a record of these 3 guy’s personalities.

**JAPETH/YAFET**

**Yafet** (Japheth) Expansion (speaking of the expansion of God’s Kingdom. His name was part of Noach’s 3 point sermon outline that he was preaching before the Flood. Noach was preaching that people should put their trust in the NAME of YAHWEH, & not the names of the sons of the Nephilim (who had become their heroes). {You are not going to see this unless you read the Genesis 6:1-8 Hebrew Text. [http://www.w-rocs.org/stones/Genesis_6_1to8_stones.pdf](http://www.w-rocs.org/stones/Genesis_6_1to8_stones.pdf) See the end of verse 4 } All those who put their trust in the names of the sons of the Nephilim would receive the heat of God’s judgment. All those who put their trust in YAHWEH would receive the heat of eternal life (dead things don’t produce their own body heat) & all those who put their trust in the names of the Nephilim would receive the heat of God’s wrath.}

‘Yafet’ (Japheth) {was the last point in Noach’s sermon. He was saying that the knowledge & dominion of YAHWEH’s Kingdom would expand from ‘horizon to horizon’ & fill all the heavens & all the earth! It would be vast!} Noach’s sermon was an addendum to his Great Grandfather Enoch’s sermon mentioned in Jude 14-15. The following gives specifics:

‘Shem’ {‘name’ in reference to Gen 4:26 because at the time of these 3 son’s births, the people had abandoned the worship of God’s NAME & had instead put their trust in the names of the sons of the Nephilim Gen 6:4.}

‘Cham’ (Ham) {an ‘oxymoron’ which means ‘heat’ because Noach was preaching that all those who put their trust in the NAME of YAHWEH would have the ‘heat’ of life (people who are physically dead do not produce their own body heat) & all those who put their trust in the names of the sons of the Nephilim would receive the heat of God’s wrath.}

Noach’s ‘Sermon Notes’ are presented 3 times before the Flood & 3 times after the Flood! It’s always ‘Shem, Cham & Yafet’ in that order! (Genesis 5:32, 6:10, 7:13 & after the Flood 9:18, 10:1, 1 Ch 1:4) [During the ‘wine incident’ in Gen 9:20-27 Noach is very careful not to mention his ‘sermon notes’ but refers to Cham as ‘his youngest son]
Gō-mer ‘To bring to an end, to complete’
Why would Yafet & his wife name their first born ‘To bring to an end, to complete’? My guess is that he was probably conceived while they were still on the Ark, but after the rain stopped. He was probably born soon after they exited the Ark. It would be their way of saying "The rain has stopped, the Flood has ended, the old world & its ways have ended!"

Ma-gog ‘Magog on account of the surface rising’  Magog & Mizraim (Gen 10:6 & pg 8) may have been born around the same time. See research on pg 27.

Ma-die ‘Madai from what is enough’, or ‘sufficiently’.  This guy....

Yavan ‘wine effervesce’  ....and this guy were twins. Their names go together.

This 4th son was probably born right after Genesis 9:23. This would mean that the wine incident happened probably during the first time that there was enough grapes to make wine, which would be about 3 or 4 years after the Flood.

Notice the word used for ‘wine’ in Genesis 9:21 & 24  It’s !yY: and

Mē-shech ‘Meshach [root word]
‘acquisition in the process of scattering seeds & those seeds taking root, then multiplying and spreading. It’s the idea of spreading out & seizing something, & becoming strong & durable in the process’.

As an illustration, in Montana, where I live, we have a problem with plants that were introduced to the area by European settlers. The technical name for those plants are ‘noxious weeds’. When a ‘noxious weed’ is introduced into an area, it takes over the soil & multiplies to the point where the native plants are no longer able to thrive. Pretty soon there are huge areas of nothing but ‘noxious weeds’. This is the idea for the translation of ‘Meshech’, but in a positive way!
Tērās srtyi Tiras ‘terrifying fracture’

ry from root word ary which means ‘to fear, be afraid’. Example: aryt ‘fear’ proper name 1 Ch 4:16

sr from hsr ‘fracture’ from root word ssr

Tiras was the youngest son of Japheth. He had 6 older brothers & presumably an unknown amount of sisters.

Keep in mind that

for every geological event,

there are

at least 2 people

whose names describe something about that event.
The Next Generation... THE NAMES TELL A STORY: Volcanic activity!!

Check out the following comparison.... (It’s absolutely profound!)

Gomer & Javan (Yavan) were sons of Japheth (Yafet)

Gomer’s sons
1) Ashkenaz (sprinkled with fire)
2) Riphath (poundings-shakings)
3) Togarmah (to be poured out everywhere)

Javan’s sons
1) Elishah (God is, God owns, God is firm)
2) Tarshish Kittim (destruction breaks into white pieces) (violent peltings)
3) Dodanim (‘2 breast (masc.)judgments’, as in volcanic eruptions)

Arphaxad & Aram were sons of Shem.

Aram’s sons
1) Uz ‘to consult, take counsel’
2) Hul ‘to be hurled’
3) Gether ‘a full vat’ (the vat part of a wine press where grapes are trodden that’s full of liquid.)
4) Mash ‘to move, withdraw, depart, escape’

Arphaxad’s son
1) Shelah ‘to send’ (10:24)

[These 4 names are basic Hebrew words]

Cush, Mizraim, & Canaan were sons of Ham (Cham)

Cush’s sons
1) Seba ‘surrounds entrance’ [twin to Havilah?]
2) Havilah ‘circular’
3) Sabtah ‘surrounded by clefts/fissures’
4) Raamah ‘to tremble, quake’
5) Sabtechan ‘surrounded by what is built up’
6) Nimrod ‘let us rebel’

Canaan’s sons
1) Sidon ‘furnish oneself with provisions’
2) Heth ‘terror’ [twin to Jebus?]
3) Jebus ‘to tread underfoot’
4) Amor ‘to say, declare, command’
5) Gir-gash ‘to drag, draw away-to impel, drive, approach’
6) Chivi ‘to breath, to live’
7) Ark ‘to flee’ Job 30:3 [twin to Sin?]
8) Sin ‘mire’
9) Arvad ‘a wandering’
10) Zemar ‘wool’
11) Hamath ‘to surround with a wall (fortress)’

Raamah’s sons [contemporaries with Eber]
1) Sheba ‘broken entrance’ or ‘consumes entrance’ [possibly twins]
2) Dedan ‘breast judgment’ (as in volcanic eruption)

Mizraim’s sons
1) Lud ‘if only I could fly’
2) Anam ‘2 fountains’ [Anam & Lehab twins]
3) Lehab ‘to burn, flame’
4) Naphtuh ‘to open’
5) Pathrusim ‘enlarged fracture’
6) Casluhim ‘there is hope to live’ [twin to Caphtor?]
7) Caphtor ‘a round or spherical knob’

Casluhim’s son [next generation]
1) Philist ‘to wallow in the dust’ [contemporary with Eber]

Why are there only 6 Son’s Descendants Mentioned? See page 27

The Names Describe Volcanic Activity w-rocs.org
Possible birth-order of the cousins: [This is color coded according to their Dad’s names]

**God said in Genesis 9:1 to fill the earth**, so apparently Noah got his grandsons together when they were young adults, and persuaded ten of them to leave in order to begin a new settlement.

Apparentley Yavan was convinced that God wanted them to leave the vicinity of Ararat. (Elishah was his firstborn son.) Aram & Arpachshad were also convinced of it. Apparently Mizraim was too, but he was the dreamer of the bunch, & Canaan, being of a practical mind, began collecting provisions for the move.

1)Uz ‘to consult, take counsel’ 1)Sidon ‘furnish oneself with provisions’
1)Elishah (God is, God owns, God is firm) 1)Lud ‘if only I could fly’ 1)Shelach ‘to send’ (Arpachshad was one of the ones who went.) (Shelach was born 37 years after the Flood)

Then God allowed something to happen that would motivate the rest of them....

2)Anam ‘two fountains’ 3)Lehab ‘to burn, flame’ [Twins]
1)Ashkenaz (sprinkled with fire) 2)Hul ‘hurled’
2) Tarshish (a destruction that breaks into pieces of white, ie. ‘white volcanic ash rock or pumice’) Kittim (violent peltings)
2)Heth ‘terror’ 3)Jebus ‘to tred underfoot’ [Twins?]
1)Seba ‘surrounds entrance’ 2)Havilah ‘circular’ [Twins?]

4)Naphtuh ‘to open’ 3)Sabtah ‘surrounded by clefts/fissures’

5) Pathrusim ‘enlarged fracture’

2)Riphath (poundings-shakings) 4)Raamah ‘to tremble, quake’

4)Amor ‘to declare, or command’

3) Togarmah (to flow out everywhere) 5)Gir-gash ‘to drag, draw away-to impel, drive, approach’

5)Sabtechan ‘surrounded by what is built up’

3)Dodanim (‘2 Breast Judgments’ or ‘2 Cauldron Judgments’) [It sounds like 2 different volcanic eruptions going on at the same time!!]
6)Chivi ‘to breath, to live’ 6)Casluhim ‘there is hope to live’

7)Caphtor ‘a round or spherical knob’

After this Cush said...... ‘6) Nimrod’ (let us rebel ) [Apparently Cush, Mizraim, Gomer, & Javan leave ]

3)Gether ‘a full vat’ (the vat part of a wine press where grapes are trodden that’s full of liquid.)

4)Mash ‘to move, withdraw, depart, escape’ 7)Ark ‘to flee’ 8)Sin ‘mire’ [Twins?]

9)Arvad ‘a wandering’

10)Zemar wool

11)Hamath to surround with a wall (fortress)

67 Years after The Flood (Gen 11:10-14)
Shelach’s son 1) Eber ‘To passover’ or ‘to overflow’

Raamah’s son 1) Sheba ‘broken entrance’ or ‘consumes entrance’ Are these guys twins or is this 2 separate events?

Raamah’s son 2) Dedan ‘breast judgment’ [as in mountain top volcanic eruption]

Casluhim’s son 1) Philist ‘to wallow in the dust’

The Names Describe Volcanic Activity

w-rocs.org
PLEASE NOTE: The names in all of the following verses include the Hebrew research done on their meanings. I did this because the concordances usually say 'of foreign origin' without rendering a Hebrew meaning, & I disagree with them! I am of the opinion that Ancient Hebrew was the language that Adam spoke, therefore, because most of these people were named before the Tower of Babel incident, they should all have some kind of meaning in Hebrew. Because I am doing the research from this perspective, I have to back up my research. If you want to see my references, they are at the end of this document. Also note that the references I use were developed before the mechanics of volcanic activity were widely understood, so it wasn’t included in those references.

Sons of Gomer
1) Ashkenaz (sprinkled with fire)
2) Riphath (poundings-shakings)
3) Togarmah (to flow out everywhere)

[**KJV**] And the sons of Gomer; Ashkenaz, and Riphath, and Togarmah,

Ash-k-náz  Ashkenaz ‘sprinkled with fire’

va fire (used of lightening, or the sun, or metaphor used for anger) or ‘shining brightness’ burning, fiery, fire, flaming, hot
hko this manner! so’, ‘thus’
hzn be sprinkled or sprinkle, to spatter,
dyn ‘haw-zeed’ is something boiled.

It sounds like there was some volcanic activity going on around Mt Ararat during that time, especially when you compare this with his two brother’s names.

It’s also a possible prophetic picture of the Germans that was fulfilled during the 2nd World War. [The Jews refer to Jews in the Diaspora who dwelt in the area of Germany & it’s surroundings as ‘Ashkenazi Jews’. The Ashkenazi Jews were sprinkled with fire. The word ‘Holocaust’ means ‘burnt offerings’.]

Rē-făt Riphath ‘poundings-shakings’

tpr to be agitated, shaken Job 26:11
Arab. to bruise, pound

It sounds like the kind of continuous earthquakes that happen just before a volcanic eruption. The word means to shake, agitate, pound.

Toe-gar-mah Togarmah ‘To Flow Out Everywhere’.

hm 2nd person singular ‘to be poured out, to flow out
everywhere’

Possibly talking about a volcanic flow of lava.

The Names Describe Volcanic Activity  w-rocs.org
Sons of Javan/Yavan

1) Elishah (God is, God owns, God is firm)
2) Tarshish (destruction breaks into white pieces) Kittim (violent peltings) [This is 1 person with 2 names]
3) Dodanim ('2 breast (masc.) judgments' or '2 cauldron judgments' as in '2 mountain peak judgments' as in volcanic eruptions.)

[Dodanim & Kittim Tarshish & Elishah Javan sons &]

[KJV} And the sons of Javan; Elishah, and Tarshish, Kittim, and Dodanim. {KJV doesn’t line-up with Hebrew Text!]

El-ee-shah "God is’, ‘God owns’, ‘God is firm’
la ‘mighty’ la ‘God’ [The 5 little purple ‘dots’ underneath the la indicate that the name is referring to ‘God’.]
hv’y‘ to be, exist, subsist, to be firm

‘God is firm’ [You would expect Japheth’s kids & grandkids to know the true God, & here’s evidence of it!]

God said in Genesis 9:1 to fill the earth, but people like sheep usually want to stay huddled together. Apparently Yavan was convinced that God wanted them to leave the vicinity of Ararat. Elishah was his firstborn son, but for some reason at that time he remained in the vicinity of Ararat.

Tar-shiysh vvyr’t Tarshish (a destruction that breaks into pieces of white, like the color of white marble. ie. ‘volcanic ash’. Or the destruction breaks it into little white volcanic rocks.)

Vwr to break in pieces, to destroy
Vvy noun, masc. sing.; Ww root. ‘to be white’ Vv’ white marble
rWA to go around, or about rA turn, order

There’s no ‘&’ [Vw] between ‘Tarshiysh’ & ‘Kittim’ in the Hebrew Text. This is the only place where the ‘vav’ is left out between people’s names in these lists of names. ‘Tarshish Kittim’ is the name of one person instead of two. When the list of names are counted in this chapter, if Tarshish Kittim is counted as 2 persons instead of one, the number is 71 instead of 70! (16+35+4+2+13=70 nations)

Key-teem ytk Kittim (violent peltings)
ttk to beat, hammer, forge, beat down, break in pieces ytk this form makes the word plural.

Strongs #3807 ‘to bruise or violently strike:--beat(down, to pieces), break in pieces, crushed, destroy, discomfit, smite, stamp.

NASB #3807 [510a] to beat down, crush by beating:--battered(1), beat(2), beat down(1), broke in pieces(1), broken in pieces(1), crush(1), crushed(4), defeated(1), hammered(2), shattered(1), smashed(1), strike(1).

(see the previous name)
Doe-dah-niym  Dodanim (‘2 Breast(masculine) Judgments’ or ‘2 Cauldron Judgments’) [Dodanim is not a duel word and Greater and Lesser Ararat are considered to be 2 different parts of the same volcano system.]

Dōd breast, teat  [masculine word ‘love’, but only in the plural]  the breasts (masc.) (only in the dual)  #1717 the breast(as the seat of love, or from it’s shape)

DōdWD

1) Syr. to disturb, agitate
2) to love  
1) pot, boiler, or cauldron, pl.  to rule, govern, judge  cause for judgment  ‘Dan’ (judge) [one of Jacob’s sons]  

Possibly ‘2 Breast(masculine) Judgments’. [Mountains is a masculine word, so breasts has to be masculine too in the Hebrew] In Montana & other places along the Rocky Mountain Chain, Mountain peaks can be named after women’s breasts. You’ve got ‘Squaw Peak, ‘Molly’s Nipple’, ‘Twin Peaks’ & the ‘Grand Tetons’ (Which in French means something about ‘huge breasts’) to name a few. [Don’t laugh!! This is a delicate subject!!! Guys are the ones who tend to give the mountains their names, & the women are the ones who get a little upset about it!!] When you’re done laughing...... maybe that’s why the word is ‘masculine’ because the women took offence?..... Right after the Flood the mountain peaks would have been more pronounced. [Oh man, this is going to get me in more trouble!] Consider the scenario... back then there was no such thing as ‘political correctness’ & you’ve got all these women nursing their babies ‘cause there was no such thing as bottled formula back then & then you’ve got some very sharp new mountain peaks that haven’t been eroded away by geological processes yet.... Most likely there’s going to be some connections between the two visuals... Do I need to say more?

[1Ch 1:7  Masoretic text but not KJV or Hebrew Publishing Co,1939]

[Cham/Ham]

Cham  ‘heat’ (speaking of God’s ‘heat’)

[Cham/Ham] By these were the isles of the gentiles divided in their lands; every one after his tongue, after their families, in their nations.

The Names Describe Volcanic Activity  w-rocs.org
The pillow lava on Mt Ararat would have been something they had never seen before. Consider also, that before the Flood, rocks would have only been located in mines & quarries, and not scattered randomly across the face of the earth. (Before the Flood, rounded rocks could have been worth a fortune!) See also update on page 27

---

An ancient version of ‘high & dry!’ or ‘someplace safe!’ Mizraim is a ‘dual’ plural Hebrew word.

---

Whatever the affliction was, at this point Cham became angry instead of trusting God, & then, because of his anger, his mind became clouded to the point that when Noah became intoxicated (probably on accident) his response was not what it should have been. [Apparently ‘the afflicted one’ was willing to keep God’s command to fill the earth, because he is the only one out of Cham’s sons who leave Ararat in the first migration.]

---

It could be that Phut & Canaan were twins, because their names seem to go together. Maybe they were born under weight & weak, & Phut was the weakest of the two. Obviously, God was faithful despite their weaknesses because they both grew up to produce great multitudes of people. (And apparently out of all 4 of Ham’s sons it was Phut who was the one who was willing to go down to Shinar in the initial group who were sent out to colonize.) Cham may have addressed them as ‘Afflicted’ and ‘Humble’. Apparently, according to Luke 3:36, one of Chnaan’s daughters married Shelach the grandson of Shem. Shelach is ancestor to Messiah Yeshua/Jesus (The other end of that genealogy list’s Mary’s Dad, & Luke was writing to the descendants of Ch’naan! It might not be an ‘error’ as some speculate.) Somehow, Ch’naan kept the original language. My guess is that he didn’t migrate down to Shinar with his brothers because he didn’t want to serve them, and he didn’t want his kids serving them.

---

The Names Describe Volcanic Activity

w-rocs.org

12
## Sons of Cush

1. **Seba** - ‘surrounds entrance’
2. **Havilah** - ‘circular’
3. **Sabtah** - ‘surrounded by clefts/fissures’
4. **Raamah** - ‘to tremble, quake’
5. **Sabtechan** - ‘surrounded by what is built up’
6. **Nimrod** - ‘let us rebel’

### Raamah’s Sons
1. **Sheba** - ‘broken entrance’ or ‘consumed entrance’
2. **Dedan** - ‘breast judgment’

---

### Say-vah
- **abs** as a whole word means ‘to become drunk, drink, wine’. If broken down it could mean to ‘turn to go in’ or ‘surrounded entrance’
- **hT'b.s;** Fem. of root word **ttb** and it means ‘clefts, fissures’

### Does Seba mean
- ‘to drink to excess’ or does it mean ‘to turn to go in’? Two of his siblings also have names that begin the same way. Let’s compare them:

#### Seba
- **abs** as a whole word means ‘to become drunk, drink, wine’. If broken down it could mean to ‘turn to go in’ or ‘surrounded entrance’

#### Sabtah
- **hT'b.s;** ‘surrounded by clefts/fissures’
- **Fem. of root word** **ttb** and it means ‘clefts, fissures’

#### Sabtechan
- **akT'b.s;** ‘surrounded by what is built up’

---

### Cha-vee-lah
- **Havlilah** ‘Circular’
- Strongs #2341 ‘circular’, probably from #2342
- #2342 a prim. root. ‘to twist or whirl’ (in a circular or spiral manner)

---

### May have been Seba’s twin

---

### The Names Describe Volcanic Activity

---

13
Ră-măh \( \text{Raamah 'to tremble, quake'} \)

Sav-tcha \( \text{Sabtech 'surrounded by what is built up'} \)

She-va \( \text{Sheba 'breaks-up entrance' or 'consumes entrance'} \)

Neem-rod / Nimrod

\( \text{Neem-rod 'to rebel'} \)
\( \text{Nimrod = 'let us rebel'} \)

How did Cush get away with naming his son 'let us rebel'? It apparently was his reaction to the volcanic activity he encountered at Ararat, & although he was the one who would inherit his father's farm, he decided to leave the area instead.

[**KJV**] And Cush begat Nimrod: he began to be a mighty one in the earth.

'He began' or 'hu hechell': The idea behind the word 'began' is 'to set the stage so that others can follow'. The same Hebrew root word is used for the 'window' that God told Noah to cut into the Ark (Gen 8:6). It's also used for Gen 4:26 when men 'began' to call upon the NAME of YAHWEH. It is also used in Genesis 9:20 where Noah 'began' to be a farmer.

Dr Kent Hovind puts forth the idea about how the guys who can hunt & save the village from the fierce beast usually become the people's heroes. Before the Flood, the people turned away from putting their trust in the NAME of YAHVEH & instead, put their trust in the strength & talent of the Nephilim. In this case, according to verse 9, it sounds like these guys were applauding Nimrod's exploits & giving God the credit for it at the same time; However, it got to the point where they transferred their trust completely over to Nimrod & he persuaded them to rebel against God's command to fill the earth.
He was a mighty hunter before the LORD:

wherefore it is said, Even as Nimrod the mighty hunter before the LORD.

tza-yid/hunter: 'hunter' is the meaning of how it's used here. But what's interesting is that the root word is also used as a metaphor meaning 'to hunt, pursue, ensnare, beguile men'. The root word can also be used as a citadel, fortress, strong place, or net of a hunter. And if you drop the last letter of the root word, then the meaning changes to 'command', 'precept'.

Was he building all 4 places at once? All 4 names translate into Hebrew & make sense. If he began building them after the Tower Of Babel incident, they probably wouldn’t be translatable, unless he was one of the ones who continued to speak the original language.[Ur was in this area. Later did Abraham have to learn a different language in order to live in the land of Canaan?]

The Names Describe Volcanic Activity

Babel: the idea is to pour one liquid into another until it over-flows & pours out in all directions. (When God confounded the language, He poured new words into it & it overflowed in a multitude of directions, picking up debris along each flow.)

Erech: root word: 'to be or become long' of both space & time. It means to be huge & last a long time! The name is a boast.

Accad: from an unused root prob. mean. 'to strengthen' 'a fortress'. The name is a boast.

Calneh: along the Tigris river (Arab.) to complete 'the whole' 'magnificent'. The name is a boast.
Shinar: ‘tooth skin’. It was their way of describing this vast valley below the mountains they were so familiar with ‘a sharp (distinct) rise’
to sharpen a tooth, a sharp cliff
from something that is bare. Job 19:20 αἰρα‘skin of the teeth’ (gums)

kā-lāch et v iy yătză/went-forth acy This is a root word with a common gender. If it was a single person it would have a single person gender designation attached to it. Asshur, who was one of the original ‘10’ that were sent out from Ararat to start the next colony, continued to keep the pattern set before him, & with each new generation of his descendants a certain number was chosen to go start a new colony. Because the names of the cities are translatable Hebrew words, apparently they left the land of Shinar & Nimrod’s control & built Nineveh, Rehoboth, Calah, & Resen, & continued to speak the original language, before the rebellion at Babel occurred. Notice the difference in attitude between the names of Nimrod’s cities & Asshur’s.

nîn-vēh ‘perpetual dwelling’
\[Jonah spoke the same language as the Ninevites. He didn’t need an interpreter!\]

rā-chō-vōt ‘wide/spacious/roomy [walled] city’
rā-chō-vōt ‘wide/spacious/roomy’

bxr ‘to be or become wide, spacious’
iyr i ‘a city was a place that was fortified for protection. And keep in mind that the walls had to be massive enough that they would keep out huge dinosaurs as well as unwanted people. [Neither of which compute in our thinking!]

kā-lāch xl Calah ‘old age’ or ‘full age’ Job 5:26, 30:2 ‘to be complete’, ‘maturity’

rēsen l Resen ‘to bind, bridle, halter, the inner part of the mouth, the jaws’
Possibly the idea behind the name had something to do with the power to control. She was known as ‘the big city’ or the ‘preeminent city’ [walled city]

[KJV} And Resen between Nineveh and Calah: The same is a great city.
[Be careful not to get Calah mixed up with Calnah! The one that belongs to Nimrod has a ‘n’ in it!]

Babylon is 55 miles (85 Kilometers) South of Baghdad in Iraq along the North side of the Euphrates River. [You can see the site on Google Earth]. Apparently the area in-between the Tigress & Euphrates rivers from about Baghdad & on towards the gulf coast is the ancient land of Shinar. Nineveh is 250 miles (396 Kilometers) Northwest of Baghdad in the Metropolitan area of Mosul, Iraq. Try clicking ‘Shinar’ on Google Earth.

The Names Describe Volcanic Activity w-rocs.org
Sons of Mizram

Please note: The 'im' at the end of each word is how a person’s name is made into a tribe of people in Hebrew.

Lud im ~ydIWl ‘if only I could fly’ (see Hebrew ‘work-up’ on page 17 for Shem’s son Lud)

Anam im ~yImin”

Lehab im ~ybih’l. from bhl to burn, flame (Anam & Lehab are twins)

Naphtuch im ~yxiTup.n: from xtp to open

Pathrus im ~ysirUt.P; ‘enlarged fracture’ from htp to open wide, to enlarge, & ssr fractures

Could also be interpreted as ‘enlarged fractures’

Caslu-chi m ~yxilus.K; ‘hope to live’ from lsk hope, confidence, & yxi life

Grandson through Caslu-chi: Philisht im ~yTIv.liP. from vlp ‘to roll oneself, to wallow in the dust’

Caphtor im ~yrITop.K; from rITop.K; round or spherical knob (Caslu-chi & Caphtor may have been twins)

The Names Describe Volcanic Activity

\[\text{w-rocs.org}\]
Sons of Canaan (Hebrew was the language of Canaan, Isaiah 19:18)

Sidon
- txe  ‘to furnish with provisions’
- SBY  to provide

Heth
- txe  ‘terror’
- SBY  to be broken, to be terrified, dismayed, confounded, to be broken in pieces, be shivered

Jebus
- rna  ‘to tread underfoot’ (Heth & Jebus are probably twins)

Amor
- CHiv  to say, declare, command

Gir
- vgn  to drag, draw away
- yw  to impel, drive,

CHiv
- yw  to breath, to live

Ark
- qr  ‘to flee’ Job 30:3

Sin
- !ys  mire [perhaps a mud flow from melting ice or a volcano] (Ark & Sin are probably twins)

Arvad
- dw  ‘a wandering’

Zemar
- rna  wool

Hamath
- yh  from
- hwx  to surround with a wall (fortress)

[HJV] And Canaan begot Sidon his first-born, and Heth,

[Ark & Sin are probably twins]

[Arvad & Zemar are probably twins]

[Hamath & Sin are probably twins]
Jebusite  
ysi - see 
place trodden down'. Ancient name for Jerusalem
from to trample upon, tread underfoot

Amorite  
ā-moor-ee from to say, declare, command

Girgasite  
gir - to drag, draw away’
root form to impel, drive, to approach’

Hivite  
chey-vee from to breath, to live

Arkite  
ar-key from ‘to flee’ Job 30:3

Sinite  
sin from mire [Oxford dictionary = 2)swampy ground]  
[Webster’s= 2)heavy, often deep mud or slush 1)wet. soggy earth]

Arvadite  
văr-vă-dee  
from a wandering’ to flee’ a fugitive’ to wander, rove

Zemarite  
z-mar-ee from wool Strong's #6785 'to be shaggy'

Hamathite  
cha-mat-ee from to surround with a wall (fortress)

The Names Describe Volcanic Activity w-rocs.org
**Area Names:**

grāh-rāh Gerar **from** to drag, draw away pg 141 Strongs #1641 to bring up the cud (to ruminate), to catch, chew, destroy, saw. Strongs # 1642 ’a rolling country’

Lāshā Lasha Strongs #3962 from an unused root thought to mean ’to break through. A boiling spring.
A place probably E of the Jordan
to look at, regard with attention to, unto, towards

 tzvoi-yim Zeboim **to swell, to be prominent** gazelles

ădmāh Admah **to be red, ruddy, reddish brown**

ă-mōr-āh Gomorrah [notice that there is no ‘g’ in the Hebrew] to bind sheaves; ’a heap’ (of grain)

să-dō-māh Sodom ‘dew’ or ‘plentiful waters’
Strongs #5467 from an unused root. meaning ‘to scorch’; ‘burnt district’ (volcanic or bituminous)

ăh-zāh Gaza [notice that there is no ‘g’ in the Hebrew] ‘to console’
Strongs #5804 ’strength’ feminine of ḍ ‘strong’, ‘vehement’, ‘harsh’

**The Names Describe Volcanic Activity**

[KJV] These are the sons of Ham, after their families, after their tongues, in their countries, and in their nations.

w-rocs.org
SHEM
Shem ~ve Name (talking about God’s NAME!)

The word ‘greater/elder’ is describing Shem & not Japheth according to the way Hebrew sentences are structured. In Hebrew the sentence starts with the subject of the sentence, & then it later adds the adjectives & phrases to describe the subject.

For example we would say ‘man’: tall, father of, brother of, oldest (or older than) to describe the man (not his brother).

For examples of Hebrew sentence structure, look at Genesis chapters one & two of the ‘Brain Pickers’. [See The MacArthur Study Bible concerning this verse; Also see Stern’s ‘Complete Jewish Bible’; & the ‘JPS Hebrew-English TANAKH’]

If Shem was the younger brother of Japheth, the verse would say ‘the younger’, after ‘Japheth’.

The Names Describe Volcanic Activity

Elam ~le plural form from hl [to go or come up, to ascend, mount up] (can be about a growing plant, or exalting a person, or can be an offering upon the altar) to rise, to increase, to arise (of the dawn). Used in 8:20 for the offerings ascending (up in smoke) to God. They sacrificed several critters, hence the plural form. These sacrifices would have been of utmost importance to Shem. [The name is a beautiful blessing!] Used in Genesis 14:19 where Melchizedek blesses Abram. ‘God Highest’ is

Asshur ~Wa; ruva from hpr to go straight on’ (1) to guide, direct upright 2) to be happy or blessed) (Asshur & Arphaxad are probably twins as their names go together. See Genesis 11:10)

Arphaxad ~dpr; to be set free from your enemies to the point that you can utterly relax! (It’s prophetic of Israel when Messiah returns!)

Lud ~dLV had 'if only I could fly’ (Lud & Aram may have been twins as their names seem to go together)

[Webster’s NewWorld Hebrew Dictionary by Hayim Baltsan]

[It’s not as far fetched as you might think. When I lived in the Eastern Highlands of Papua New Guinea, I used to visit a town called ‘Chimbu’. It was located up in the mountains. The airstrip was on the edge of a cliff. There were mountains towering above the town, & those mountains were dotted with villages. They were so far away,]
they looked like miniatures. The forest was all around them. It was one of those times in my own life where I too wished I could fly like a bird. Right after the Flood, the Ararat mountains would have been much taller than they are today. The ability to fly could have been a keen desire of Shem’s!

After studying this out for the past couple of years, I’m convinced that when this son was born (& the next one) Shem was then living down in the Armenian valley looking up at Mt Ararat & it was his reaction to seeing the height of Mt Ararat at that time. It was the first time on earth anybody had seen a mountain that tall before. It probably also gave him a whole new perspective on the height of the heavens, etc.

Aram ̲ra ‘to be high’ (lofty). ‘He is high’ or ‘He is mighty’ (See previous note above.)

Sons of Aram

Măsh & Gether & Uz & Hul & Aram & sons-of &

[1023]

10. And the children of Aram; Uz, and Hul, and Gether, and Mash.

Măsh ̲m ‘to move, withdraw, depart, escape’

The Names Describe Volcanic Activity
Sons of Ār-pāch-shād  [The ‘ch’ is pronounced like the ‘ch’ in Bach the famous musician.]

[The ‘ch’ is pronounced like the ‘ch’ in Bach the famous musician.]

Shēlāch -xl; Salāh  means ‘to send’. [Salah married one of Canaan’s daughters according to Luke 3:36 compared with Gen 11:12. Luke also mention’s Mary’s husband Joseph’s father-in-law Luke 3:23. Luke was a missionary along with Paul to people who were descendants of the Hittites & Ludites]

Eber -et  begot Salāh & Salāh  et begot Arphaxād &

[The ‘ch’ is pronounced like the ‘ch’ in Bach the famous musician.]

And Arphaxād begat Salāh; and Salāh begot Eber.

Eber -et  begot Salāh & Salāh  et begot Arphaxād &

[The ‘ch’ is pronounced like the ‘ch’ in Bach the famous musician.]

Shēlāch -xl; Salāh  means ‘to send’. [Salah married one of Canaan’s daughters according to Luke 3:36 compared with Gen 11:12. Luke also mention’s Mary’s husband Joseph’s father-in-law Luke 3:23. Luke was a missionary along with Paul to people who were descendants of the Hittites & Ludites]

Eber -et  begot Salāh & Salāh  et begot Arphaxād &

And unto Eber were born two sons: the name of one was Peleg; for in his days was the earth divided;

[Pale & Joktan may have been twins as their names go together.)

The Names Describe Volcanic Activity  w-rocs.org
yăk-tăn from Joktan ‘diminished’. It’s a reference to the land becoming smaller, & not the man himself. Joktan had 13 sons & that’s one of the most numerous accounts of sons listed in the scriptures. The LORD is the one who gave him the sons. It seems to me that through Joktan’s name, the LORD is pointing out that the land was diminishing because of the water rising due to the post Flood lakes breaching, ice sheet beginning to melt, & the mountains reaching isostatic balance (thus causing the ocean floors to rise). Also note that Yaktan walked with the LORD, indicated by the names of some of his sons.

Sons of Joktan

Jerah & Hazarmaveth & Sheleph & Almodad & begot Joktan &

yărăch ‘a lunation’ i.e. a month, or a moon cycle.. ‘month’, ‘moon’.

It could have been a total solar eclipse. (These guys would have been very familiar with the study of astronomy.) According to ‘Our Created Moon’ by DeYoung & Whitcomb ‘A particular city might expect to witness a total solar eclipse only about once every 360 years’ (pg 32). What is interesting here is that if you divide the amount of time from the first year of Creation up till the estimated time of Yarach’s birth, it’s 1800 years (360 x 5). If you go backwards (by 360 x 3) from 1063 BC which was a total solar eclipse recorded by Babylonian astrologers, this would put Yarach’s birth at about 2143 BC. If you add the missing 164 years to the Jewish Calendar, that would be 2138 BC by the Jewish Calendar (which is only 5 years difference). [The missing 164 years has to do with a Rabi shortening the span of the Persian Empire. For this information see pgs. 931-932, ‘The Annals of The World’ By James Ussher, 6th printing Nov 2006, Master Books]… When I first started researching this, that’s what I thought, but later, when I translated the names in the Irish & British genealogies listed in ‘After The Flood’ by Bill Cooper B.A. Hons. (see http://www.w-rocs.org/stones/Magog_and_Javan_Descendants.pdf ) I began to wonder if it was some kind of volcanic eruption that sent enough ash up into the atmosphere to block the sunlight for a whole month, because one of Magog’s descendants who would have been a contemporary of Jerah is named ‘Eremon’, which translates as ‘Light-Refused’. And another one of Magog’s descendants, also a contemporary of Jerah & a cousin of Eremon is named ‘Seara’ which translates as ‘to be scattered by some kind of terrifying tempest’. Several of Jehreh’s sibling’s names are describing events associated with volcanic activity. That would also explain why the next son is named ‘Hadoram’!

The Names Describe Volcanic Activity

w-rocs.org
[KJV] And Hadoram, and Uzal, and Diklah,

hā-dōr-ām  הַדָּוִר-עָם  ‘thanks/praise be lifted up’
rdh  הִרְדֶּח  honor, respect
ch  חַ  a shout
rd̄l  רֵדְלָ  to dwell, to move in a circle, go around, age, generation
wh from  חָי  to give thanks, praise
r from  רָ  to be high, lofty, to be lifted up

oozāl  עֹזָ  ‘to go away, to depart’

díklāh  דּיקָלָה  ‘to make into nothing’ by one of the following methods: crushing, crumbling, beating, bruising, pulverizing, threshing or grinding.
qpd  קִיפְּד  to crush, crumble, beat into pieces, bruise, make into powder or dust; to beat or grind small; to pulverize, thresh.
hl  הַל  ‘not’, ‘nothing’ [A ‘Krakatau’ event where a volcano blows up? Insight from Rick Oliver, PhD.]

[KJV] And Obal, and Abimael, and Sheba,

övāl  אוֹבָ  from  אֹב  to be leafless, stripped of leaves [Davidson]

When magma comes in contact with limestone, it produces carbon dioxide which comes up through the soil & prevents the roots of the tress from taking in oxygen, so that they die & their leaves fall off. This is currently happening in Mammoth Lake, Calif. (Insight from Rick Oliver, PhD.)

āvē-mā-ēl  אָבְעֵה-מָא-עָל  ‘A Father is God’ [NASB]

[Yb]a  יָבָא  father
[ba  בָא & an unused word. NASB]

sh-vā  שִׁבָּ  ‘breaks-up entrance’ (Sheba & Ophir may have been twins.)

bb’v  בּבְּבַ  7616 ‘to break up’
hab  חוֹב  #872 an entrance (i.e. to a building): entry
al  אֶל  from  עָלָ to enter, come, or go
And Ophir, and Havilah, and Jobab: all these were the sons of Joktan.

And their dwelling was from Mesha, as thou goest unto Sephar a mount of the east.

The Names Describe Volcanic Activity

And Ophir, and Havilah, and Jobab: all these were the sons of Joktan.

These are the families of the sons of Noah, after their generations, in their nations:

And by these were the nations divided in the earth after the flood.
**Magog** (Genesis 10:2 & pg 4) and **Mizraim** (Gen 10:6 & pg 10) may have been born around the same time. Their names seem to be describing something that was going on at the time. Magog gives the idea of a surface that continues to rise, and Mizraim gives the idea of being high above something and dried out. (See the research on their respective pages.) In researching ‘Noah’s Ark: Fact or Fable?’ by Violet M. Cummings and ‘The Explorers of Ararat & The Search for Noah’s Ark’ by B.J. Corbin, I found out that the ancient traditions of the Armenians say that Noah & his family descended Mt Ararat on the Armenian side of the mountain. If that is the case, most likely, when they first got off the Ark, the ‘land’ of Armenia would have been a huge ‘lake’ at the base of Mt Ararat at that time. Rivers & streams would have been flowing into it from ‘anywhere uphill’. Apparently all the debris from the flood began to accumulate where the drainfield of the present day Araxes River is located just past Naxcivan and Nechram. Go to Google Earth and follow the Aras River past Naxcivan and Nechram. The erosion scares indicate that at some time in the past the water was bottle-necked there, and rose. Then whatever was the cause of the problem suddenly broke loose and the huge volume of water left quickly, eroding the area just below the ‘neck’.

Here’s a possible scenario: Right after the Flood, (within a year or 2) all the debris, the logs and drift wood would have floated towards where the water exited ‘Lake Armenia’. At that time there probably was an abundance of Debris from the pre-Flood world, including what floated into the lake from upstream. Possibly during the first ‘Spring Melt’ after the Flood, huge log rafts would have formed, somehow creating a dam along the Aras river just past Naxcivan and Nechram, which in turn caused the water level of ‘Lake Armenia’ to rise. Sometime later, possibly just before the birth of **Tubal** (Japheth’s 5th son, pgs 1&2), the dam of logs & debris broke up and in the process ‘Lake Armenia’ disappeared, and was replaced by the Aras River at the base of Mt Ararat. Tubal means ‘a flowing river’. This same sort of scenario was probably happening in other mountain valleys around the globe.

'koo-sh' Cush ‘burnt(scorched) there is!’ At this time I’m convinced that it is a reference to the pillow lava Cham(Heat) found when they exited the Ark. Apparently, when Cush (Burnt-there-is!) reached adulthood & started raising a family, he lived somewhere between Greater & Lesser Ararat because of the description given in the names of his sons. Apparently he was reluctant to leave the vicinity of Ararat, because he didn’t leave after Lesser Mt Ararat began to develop. It was the lava flowing from the fault between the 2 Ararats that finally motivated him to leave. Naming one of his sons ‘Nimrod’ (Let-us-rebel) may have been his reaction to this event.

**WHY Are There Only 6 Son’s Descendants Mentioned?**
After studying the Hebrew Translation of the names in the Irish & British genealogies in ‘After The Flood’ by Bill Cooper, & comparing it with Genesis 10, I’ve come to the conclusion that Noah & his sons decided to send out groups of 10 guys with their wives & kids to start new colonies, & that was to be the pattern. It’s probably where the idea of a Jewish ‘minyan’ got started, because the first thing they would have done upon arriving at the new settlement would have been to build an altar & offer up sacrifices as an act of public worship (like they did when they got off the Ark). The ten sons whose descendants that aren’t mentioned, apparently left Ararat in the first migration. And actually the list is of seven sons & not six, because although Arphaxad/ ār-pāch-shād most likely left in the first migration, some of his descendants are also mentioned.
Tools, References, Influences, & other Interesting Items used in this research:

[If you use this tool, use a post-it note to mark out the page with the list of abbreviations, & also take smaller 'post-it' markers to mark out the pages where each letter of the alphabet starts, & if you have an older version, change the Roman numerals to modern numbers in the alphabet section. [The Hydroplate Theory is the best overall fit with the Genesis 1-11 Hebrew Text.]

http://www.creationism.org/books/josephus/index.htm

**King James Bible** [What do I think of the KJV? The Ruach HaKodesh warned me about not getting into discussions over the topic., so don’t try & nail me on the subject! I have great respect for those who did the translating of the KJV. I also understand that they interpreted it according to how they perceived the 1511 world around them (see Genesis 1:1), & that they had to be ‘politically correct’ in order for their king to allow them to do the translating. Our freedoms are a direct result of the KJV Bible. For other information, see the ‘Yah but...’ section in this web site.]

This is a very helpful tool because it lists all the different English translations of each Hebrew word. Then it’s easy to go back & research each English translation of the word in the main body of the concordance & compare the reference numbers.

The MacArthur Study Bible NKJV Word Bibles ISBN 0-08499-1222-9 [John MacArthur studies the Hebrew. He was also my Pastor from 1977 to 1987, & he's the one who taught me how to study the scriptures.]

The Pocket Oxford Dictionary 1967 Oxford at the Clarendon Press, Great Britain. [If you are going to study the 'English' in the KJV, you will also need an 'English' dictionary. 'American' English & 'British' English are not the same. Sometimes the differences can be quite profound!] The 'Oxford' Dictionary is a dictionary of the 'English spoken in 'England' where the KJV was first translated.

Webster’s 9th New Collegiate Dictionary Merriam-Webster inc. Publishers Springfield, Massachusetts, USA [A friend who spoke several languages, & her husband who spoke eight, said that the best way to learn a language was by reading a dictionary in that language, and that’s how she did it.] This is a dictionary for the 'American' version of English. American is a form of English, but it’s not the 'real original thing’! (sh! don’t tell that to Americans!)

After The Flood Bill Cooper B.A. Hons New Wine Press ISBN: 1 874367 40 X Copyright 1995 Bill Cooper (See also http://www.w-rocs.org/stones/Magog_and_Javan_Descendants.pdf)

I'm also indebted to Rick Oliver, PhD. from www.ConfoundTheWise.org When I first translated the names, I wrote down how they translated into English, but I had no idea what kind of geological events some of the names of Joktan’s sons were describing, and so I was praying "LORD I need help!" Then the LORD gave me the opportunity to pick Rick’s brains... And afterwards I was able to piece together the research on the ‘Sons of Eber’, see http://www.w-rocs.org/stones/Sons_of_Eber.pdf

Apologia: So you don't think a 'Traditional Domestic Engineer’ has the God given ability to learn & study Hebrew & come up with this stuff? No? Only pastors should be learning Hebrew? Well, first of all I belong to a Messianic Jewish Congregation & it’s required of every man, woman & child that they begin to learn Hebrew when they belong to the Jewish community at large, even though we have put our trust in Yeshua (Jesus) as God’s LAMB Who took away our sins. Secondly, it has taken me countless hours of research just into the Genesis 10 Hebrew Text alone, so how much time would a Pastor have to spend on it with everything else he is supposed to be dealing with? Thirdly, did you know that learning Hebrew along with Latin & Greek, as well as a mastery of English, & being fluent in all 4 languages was a requirement for graduating from high school when high schools first began in the United States of America? Of course only boys graduated from high school back then, but nevertheless, Hebrew was something that was common knowledge. 4th reason is we Creationists are Creationists because we believe the absolute truth of God’s word. God wrote those words in Hebrew & lots of stuff gets lost in the translation into English, no matter how good the English translation is! The Genesis 1-11 Hebrew Text is a gold mine for Creation Science Research! It's like a vast ocean filled with individual drops of water containing much that is yet to be examined. So get in there & dig! 5th reason: Do you know that there is a variety of opinions among Creation Scientists? Who is right & who is wrong? How do I sort it all out? Whose research do I use to teach other women? The answer is to hold all Creation Science Research up to the light of the Hebrew Text. It would be irresponsible for me not to do so! 6th reason: Knowing what the Hebrew Text says has made me better equipped to deal with the myriad of things that people come up with in conversation over Creation Science. 7th reason: My faith & confidence in The Creator has grown exceedingly in the process of studying the Hebrew Text. Thank you LORD!
